GitHub - cookbooks/runit: A Chef cookbook for runit Description. Installs runit and provides runit_service definition for managing new services under runit. This cookbook does not use runit to replace system init, nor are there plans to do so. [chef] CHEF-154 and upcoming change to runit cookbook Ohai Chefs, TL;DR: runit_service as a definition will be replaced with runit_service as a Chef resource/provider, under ticket CHEF-154. See, "Help with. [#CHEF-4188] runit embedded in chef-server /etc/inittab ... Sure, I can modify the runit cookbook to rename the inittab entry, but it seems that renaming the entry from the chef-server RPM to "sv" (lowercase) or "RI" (Run It) or something configurable would be the cleanest solution.

chef - [chef] Re: runit cookbook behaviour - lists.opscode.com I've tested the latest runit cookbook on my debian installation and found out that it just fails in the moment of init.d script creation. I am already aware of COOK-2322, that corresponds to this problem. chef - Packer docker build exits code 137 when running ... I'm trying to use Packer to build a docker image of the webapp I'm working on. Whenever I run packer build, when it gets to the step that it runs the runit recipe, I would get Build 'docker' errored:.
